

ENDLESS SOLUTIONS.

8 **SP™ 857 Blast 'Em™ Wasp and Hornet Killer**
SP 857 contains a high amount of petroleum distillates for the best knockdown and kill rate; kills wasps, hornets and yellow jackets with ease.

9 **LU™ 777 Outdoor Metal Protectant**
Formulated to stand up to the most severe weather conditions, this waxy, heavy-duty rust inhibitor works on all metals, rubber, and most plastic and painted surfaces.

10 **CD™ 887 Coil Cleaner**
This is an excellent, heavy-duty, water-based foaming coil cleaner designed to remove stubborn grease, grime and chloride build-up that can accumulate on refrigeration and A/C coils.

11 **XL® Series Brushes**
These versatile brushes can be used for both interior and exterior applications. The highest quality bristles make this a great brush for both water-based and solvent-based paints and stains.

12 **Mortar & Concrete Repair**
This family of products is designed to prevent damage caused by ice and water or repair cracks and joints in concrete and mortar.

13 **2300® Tripolymer Sealant**
This single-component, high performance elastomeric sealant is very flexible and UV resistant. It also adheres to wet and oily surfaces and dries tack free in 2 hours.

14 **Hydro-Defend® Water Repellent**
Hydro-Defend Water Repellent is designed to weatherproof old and new concrete and masonry surfaces against nature's destructive forces. They provide a long lasting breathable barrier that resists cracking, airborne dust and dirt, salt efflorescence and spalling.

15 **COLORTOP™**
COLORTOP is an opaque waterproofing sealer formulated to bond with concrete or masonry surfaces for lasting protection.

FACILITY MAINTENANCE GUIDE

ONE SUPPLIER.

1 **Rust Tough® Acrylic Alkyd Enamel**
These aerosol and liquid coatings can be applied direct to metal on new and clean substrates, providing long-lasting protection against corrosion with one coat. Aerosols are ideal for covering hard-to-reach areas.

2 **Iron Guard® Enamel**
A nationally compliant (<100 g/L) coating that can be applied direct to new and clean metal without a primer, this breakthrough formula has outstanding adhesion and is resistant to chemicals and corrosion.

3 **Line-Up® Striping Paint**
Available in white, yellow, handicap blue, firelane red and cover-up black, Line-Up delivers fast-drying, long-lasting durability on outdoor pavement.

4 **Acrylic Block Filler**
High-hiding and easy to use, Block Filler is a high solids product that primes and fills interior and exterior above-grade, unpainted aggregate block, poured and precast concrete, and rough masonry.

5 **Acrylic Waterborne Bonding Primer***
This primer is an interior/exterior, single-component, water-based bonding primer that is also corrosion resistant. It must be topcoated with a water-based coating.

6 **Waterborne Acrylic Enamel***
This is an interior/exterior, single-component enamel designed for light to moderate duty industrial and commercial applications. Used for new construction or maintenance work, it offers early rust and moisture resistance, flash rust resistance, corrosion and chemical resistance and is fast drying.
**For recommended use, must use 5 & 6 as a system.*

7 **VersaShield™**
VersaShield is a unique, water-based, two-component aliphatic urethane that offers outstanding performance characteristics on its own, or as a topcoat over another coating. It is safe for incidental food contacts, UV stable with excellent chemical and abrasion resistance.

16 Waterborne and Alkyd Dry Falls
 These high solids, industrial grade dry falls with high reflectance properties produce an intense white finish. They are also high hiding and provide a flash rust resistant coating.

19 Fusion All-In-One™
 Krylon® Fusion All-In-One bonds to tough surfaces, including a variety of plastics and provides maximum rust protection with no sanding or priming necessary.

23 CD™ 1201 Neutra-Force™
 Neutra-Force is an outstanding degreaser that delivers fast and effective cleaning on a variety of industrial soils.

26 EL™ 848 Flash Free® Electrical Degreaser
 This degreaser is a fast acting solvent that penetrates easily, evaporates quickly, and leaves no residue. Its excellent cleaning properties make it ideal for removing grease, dirt, wax and metallic particles prevalent in most industrial plants. It is also non-conductive and non-flammable.

28 EL 2206 Electro Wizard™ Electronic Contact
 Electro Wizard is a pressurized non-flammable gas that removes microscopic particles of lint, dust, ferrous oxide and other contaminants. This non-abrasive cleaner is also useful on delicate components and instruments. There are no harmful solvents. It is safe on plastic.

31 Tri-Flow™ Industrial Lubricants
 These lubricants are ideal for preventive and corrective maintenance in industrial applications, keeping equipment in service longer and reducing costly breakdowns caused by worn and dirty parts. Enhanced formulas with P.T.F.E. for optimum performance.

34 White Lightning® Flame Buster® Caulks and Sealants
 These are excellent one-component caulks and sealants designed to prevent the spread of fire, smoke, toxic gases and high temperatures.

36 Stop Gap® Insulating Foam
 Stop Gap! is an expanding foam that, when cured, can be trimmed, shaped, sanded, painted or stained. It is great for use on openings and gaps, masonry and concrete, corners and t-joints, wood, metal, glass and most plastics.

38 EnduraPolish™ Clear Liquid Hardener & Densifier
 EnduraPolish Clear Liquid Hardener & Densifier is an amorphous colloidal silica solution designed to both harden and densify concrete. This proprietary formulation penetrates and reacts with concrete faster than conventional systems and produces a harder, more uniform surface. EnduraPolish Clear Liquid Hardener & Densifier enhances stained or dyed concrete and is ideal for polished concrete applications.

17 Palgard® Polyamide Epoxy
 Palgard is an interior/exterior, two component polyamide-cured epoxy that protects steel and concrete in industrial environments. Formulated for use on interior and exterior surfaces of steel, iron, aluminum, galvanized metal, concrete block and masonry. Excellent adhesion and chemical and abrasion resistance.

20 Line-Up® Striping Paint
 Line-Up delivers fast-drying, long-lasting durability on indoor surfaces. It is ideal for warehouse aisles, and is available in water-based and solvent-based formulas.

24 LU™ 728 Non-Flammable Synthetic Lubricant
 This non-flammable lubricant has been specifically developed to meet the demand for a safe, low-HMIS rating. It has been modified with P.T.F.E. to enhance its lubricity.

27 LU 201 Open Gear & Wire Rope Lubricant
 A high performer that penetrates the pores of metal surfaces to reach the core of wire rope, it lubricates a wide range at high temperatures. It travels on metal surfaces to displace water, resulting in excellent rust protection. This lubricant can be used while equipment is running.

29 WL™ 739 Silver Galvanizing Compound
 WL 739 is a sacrificial coating that inhibits rust and corrosion of ferrous metals. It's a fast drying touch-up coating excellent for repair of galvanized substrates. This metallic coating has the bright finish of hot-dip galvanized coating.

32 WhiteDove™ Roller Covers
 WhiteDove rollers can be used with any latex or oil-based paints. This high-density, woven roller cover will ensure a smooth, lint-free finish each time.

35 RTV Silicone Sealants
 Made with 100% silicone, these sealants create a flexible, watertight seal with minimal shrinking. These products will not crack or crumble.

37 3006™ All-Purpose Adhesive Caulk
 3006 provides a smooth, professional bead without gaps or air bubbles, and once dry, maintains superior flexibility and elasticity. It resists rust and mildew and is available in a variety of colors, although it can also be painted.

39 EnduraPolish Hi Gloss Lithium Protective Finish
 EnduraPolish Hi Gloss Lithium Protective Finish is a lithium fortified high-gloss finish designed to penetrate and protect polished concrete surfaces by increasing the hardness, improving stain resistance, and providing superior reflectivity when burnished. H&C® EnduraPolish Hi Gloss Lithium Protective Finish chemically bonds to concrete and will never peel, flake or fade.

18 Rust Tough® Acrylic Alkyd Enamel
 These aerosol and liquid coatings can be applied direct to metal on new and clean substrates, providing long-lasting protection against corrosion with one coat. Aerosols are ideal for covering hard-to-reach areas.

21 Tough Coat® Alkyd Enamel
 This industrial formula is ideal for light-to heavy-duty maintenance projects, delivering a tough, protective coating that resists chipping and peeling.

25 LU 711 The Protector™
 The Protector is a general maintenance grease designed for general lubrication for all types of facilities, including food processing facilities. Due to its excellent film-forming and anti-wear characteristics, it will stay on metal surfaces much longer than conventional greases, resulting in longer-lasting application, with fewer lubrication intervals.

30 LU™ 522 Multi-Purpose Synthetic Grease
 LU 522 is a maintenance grease designed for general lubrication for all types of facilities, including food processing facilities. Due to its excellent film-forming and anti-wear characteristics, it will stay on metal surfaces much longer than conventional greases, resulting in longer-lasting application, with fewer lubrication intervals.

33 Master Brushes
 Master brushes provide the perfect blend of performance and value. The incredibly fine tip provides excellent control, accurate cut-in, and an ultimately smooth finish. They can be used with all paints.
