

ENDLESS SOLUTIONS.

7 CD887 Coil Cleaner
This is an excellent, heavy-duty, water-based, foaming coil cleaner designed to remove stubborn grease, grime and chloride buildup that can accumulate on refrigeration and A/C coils.

10 2300® Tripolymer Sealant
This single-component, high-performance, elastomeric sealant is very flexible and UV resistant. It also adheres to wet and oily surfaces and dries tack free in 2 hours.

8 XL® Series Brushes
These versatile brushes can be used for both interior and exterior applications. The highest quality bristles make this a great brush for both water-based and solvent-based paints and stains.

11 Hydro-Defend® Water Repellent
Hydro-Defend Concrete Water Repellent is a premium-quality, water-based sealer that penetrates and protects aged, dry, porous surfaces. Because it penetrates, it resists water damage long after the water beading is gone. The durable, no sheen, acrylic formula can be used for both interior and exterior applications. This product is milky white when applied to ensure complete coverage, but dries to a clear, transparent coating.

9 Mortar & Concrete Repair
This family of products is designed to prevent damage caused by ice and water or repair cracks and joints in concrete and mortar.

12 Hydro-Defend HB-150 Water Repellent
Hydro-Defend HB-150 Water Repellent is designed to weatherproof old and new concrete and masonry surfaces against nature's destructive forces. It provides a long-lasting, breathable barrier that resists cracking, airborne dust and dirt, salt, efflorescence and spalling.

FACILITY MAINTENANCE GUIDE

ONE SUPPLIER.

1 Krylon® Industrial® Tough Coat® Advanced with Rust Barrier™ Technology
Krylon Industrial Tough Coat Advanced with Rust Barrier Technology offers premium protection against rust in corrosive environments and has a super-durable finish. With direct-to-metal application and no primer needed, it's available in rich, glossy colors that dry to the touch in 30 minutes. It features a spray-any-way comfort tip and is recommended for use on metal only.

2 Line-Up® Stripping Paint
Available in white, yellow, accessibility blue, firelane red and cover-up black, Line-Up delivers fast-drying, long-lasting durability on outdoor pavement.

3 Acrylic Waterborne Bonding Primer*
This primer is an interior/exterior, single-component, water-based bonding primer that is also corrosion resistant. It must be top coated with a water-based coating.

4 Waterborne Acrylic Enamel*
This is an interior/exterior, single-component enamel designed for light-to-moderate duty, industrial and commercial applications. Used for new construction or maintenance work, it offers early rust and moisture resistance, flash rust resistance, corrosion and chemical resistance and is fast drying.
**For recommended use, must use 3 and 4 as a system.*

5 SP857 Blast 'Em'™ Wasp and Hornet Killer
SP857 contains a high amount of petroleum distillates for the best knockdown and kill rate; kills wasps, hornets and yellow jackets with ease.

6 LU710 - Waxy Film Protectant
Formulated to stand up to the most severe weather conditions, this waxy, heavy-duty rust inhibitor works on all metals, rubber and most plastic and painted surfaces.

13 Waterborne and Alkyd Dry Falls
These high-solids, industrial-grade dry falls with high-reflectance properties produce an intense white finish. They are also high hiding and provide a flash rust-resistant coating.

14 Krylon® Industrial® Tough Coat® Advanced with Rust Barrier™ Technology
Krylon Industrial Tough Coat Advanced with Rust Barrier Technology offers premium protection against rust in corrosive environments and has a super-durable finish. With direct-to-metal application and no primer needed, its available in rich, glossy colors that dry to the touch in 30 minutes. It features a spray-any-way comfort tip and is recommended for use on metal only.

15 Fusion All-In-One®
Krylon Fusion All-In-One bonds to tough surfaces, including a variety of plastics, and provides maximum rust protection with no sanding or priming necessary.

16 Line-Up® Striping Paint
Line-Up delivers fast-drying, long-lasting durability on indoor surfaces. It is ideal for warehouse aisles, and is available in water-based and solvent-based formulas.

17 CD757 Heavy-Duty Citrus Degreaser
This heavy-duty, multipurpose degreaser has the cleaning power to remove grime, dirt, grease and oil. For use in the manufacturing process only.

18 LU727 High-Performance Wet Lubricant
This lubricant penetrates deep into corroded areas to clean and dissolve rust, grease and dirt, even in the tightest tolerances. This top performer displaces moisture, lubricates and provides a protective film to guard against humidity and corrosion over a wide temperature range.

19 LU711 The Protector
The Protector is a general maintenance penetrate unmatched in its versatility and quality. Able to lubricate, demoteurize and inhibit corrosion, it is safe on metal and plastic surfaces.

20 EL848 Flash Free® Electrical Degreaser
This degreaser is a fast-acting solvent that penetrates easily, evaporates quickly and leaves no residue. Its excellent cleaning properties make it ideal for removing grease, dirt, wax and metallic particles prevalent in most industrial plants. It is also non-conductive and non-flammable.

21 LU201 Open Gear & Wire Rope Lubricant
A high performer that penetrates the pores of metal surfaces to reach the core of wire rope, it lubricates a wide range at high temperatures. It travels on metal surfaces to displace water, resulting in excellent rust protection. This lubricant can be used while equipment is running.

22 EL2206 Electro Wizard® Electronic Contact
Electro Wizard is a pressurized, non-flammable gas that removes microscopic particles of lint, dust, ferrous oxide and other contaminants. This non-abrasive cleaner is also useful on delicate components and instruments. There are no harmful solvents. It is safe on plastic.

23 WL739 Silver Galvanizing Compound
WL739 is a sacrificial coating that inhibits rust and corrosion of ferrous metals. It's a fast-drying, touch-up coating excellent for repair of galvanized substrates. This metallic coating has the bright finish of hot-dip galvanized coating.

24 LU522 Multipurpose Synthetic Grease
LU522 is a maintenance grease designed for general lubrication for all types of facilities, including food processing facilities. Due to its excellent film-forming and anti-wear characteristics, it will stay on metal surfaces much longer than conventional greases, resulting in longer-lasting application, with fewer lubrication intervals.

25 Tri-Flow® Industrial Lubricants
These lubricants are ideal for preventive and corrective maintenance in industrial applications, keeping equipment in service longer and reducing costly breakdowns caused by worn and dirty parts. Enhanced formulas with PTFE for optimum performance.

26 WhiteDove™ Roller Covers
WhiteDove rollers can be used with any latex or oil-based paints. This high-density, woven roller cover will ensure a smooth, lint-free finish each time.

27 Master Brushes
Master brushes provide the perfect blend of performance and value. The incredibly fine tip provides excellent control, accurate cut-in and an ultimately smooth finish. They can be used with all paints.

28 White Lightning® Flame Buster® Caulks and Sealants
These are excellent one-component caulks and sealants designed to prevent the spread of fire, smoke, toxic gases and high temperatures.

29 RTV Silicone Sealants
Made with 100% silicone, these sealants create a flexible, watertight seal with minimal shrinking. These products will not crack or crumble.

30 White Lightning 3006 Quick Dry®
White Lightning 3006 Quick Dry is a siliconized acrylic latex caulk that can be painted in 20 minutes with a brush and is paintable immediately with an airless sprayer. The full-bodied formula is ideal for filling joints and openings around doors, windows, baseboards, trim, siding and vents.

31 3006® All-Purpose Adhesive Caulk
3006 provides a smooth, professional bead without gaps or air bubbles, and once dry, maintains superior flexibility and elasticity. It resists rust and mildew and is available in a variety of colors, although it can also be painted.

32 EnduraPolish® Clear Liquid Hardener & Densifier
EnduraPolish Clear Liquid Hardener & Densifier is an amorphous colloidal silica solution designed to both harden and densify concrete. This proprietary formulation penetrates and reacts with concrete faster than conventional systems and produces a harder, more uniform surface. EnduraPolish Clear Liquid Hardener & Densifier enhances stained or dyed concrete and is ideal for polished concrete applications.

33 EnduraPolish Hi-Gloss Lithium Protective Finish
EnduraPolish Hi-Gloss Lithium Protective Finish is a lithium-fortified, high-gloss finish designed to penetrate and protect polished concrete surfaces by increasing the hardness, improving stain resistance and providing superior reflectivity when burnished. EnduraPolish Hi-Gloss Lithium Protective Finish chemically bonds to concrete and will never peel, flake or fade.
