PLASTIC COOLER

Make an average cooler stand out by helping it blend in with Krylon® Camouflage Made with Fusion for Plastic® Technology.

**PROJECT TIME**

1 1/2 hours

**SKILL LEVEL**

1 2 3 4 5

**MATERIALS**

Krylon® Camouflage Paint
- Khaki
- Olive
- Brown
- Black

Krylon® Camouflage Stencils (stencils are found on krylon.com)

- All-purpose cleaner
- Rag
- Drop cloth

**INSTRUCTIONS**

1. Set up a spray area by covering work area with a drop cloth. Make sure it is a well-ventilated area.

2. Using an all-purpose cleaner, thoroughly clean the inside and outside of the cooler to remove dirt, oil and debris. Rinse thoroughly with water and allow to dry.

3. Applying in a well-ventilated area, paint the cooler using the following color order of application for best results: Khaki, Olive, Brown and Black.

4. With your Camouflage Khaki well shaken, place stencil as close as possible without touching, hold the can of paint 6-8 inches away from the surface, spray in short bursts to create desired appearance. Repeat around entire surface of cooler.
